

VIRTUAL PRODUCTION GUIDE

WHO ARE WE?

V-cube has been providing professional services for events to capture, edit, and upload content to an online library we create for our clients. However, due to the COVID19 pandemic, it has set limits and boundaries of social gatherings resulting in cancellation and postponements of events worldwide.

What V-cube USA is able to do in this time is offer to produce online events by remotely webcasting presenters (worldwide) and creating their engaging content for your participants.

HOW CAN YOU TRANSITION TO VIRTUAL EVENTS?

1 CONNECT

Reach out to a V-Cube Broadcast Coordinator to determine the goals of your event, and how we can translate and accomplish these goals in the virtual sphere. Your V-Cube Broadcast Coordinator will walk side by side with you to plan out the virtual rooms, agenda, and interactive capabilities of your event channels.

2 ORGANIZE

V-Cube will have technicians reach out and coordinate with your presenters to remotely capture their presentations to prepare for broadcast on your event date. We can also ship out capture equipment to your presenters, with full instructions and walk through help included.

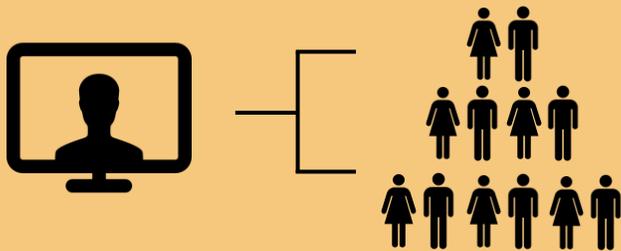

3 GO LIVE

V-Cube will have dedicated broadcast technicians to bring your event into the virtual world. On your event date, V-Cube will have all your sessions queued up to broadcast according to your event agenda. We will also monitor and coordinate all virtual interactions such as chat, Q&As, polling, and technical help.

V-CUBE VIRTUAL ROOM GUIDE

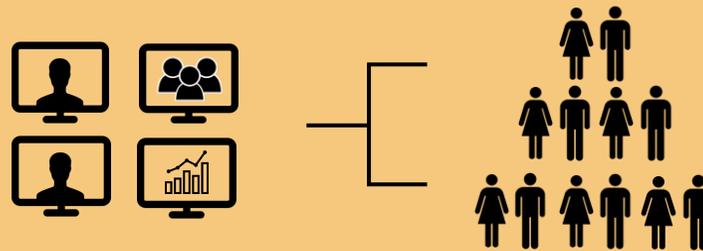

SINGLE ROOM BROADCAST

A dedicated, personalized virtual room with HD quality voice, video, and presentation. Incorporate functions like Q&A, polling, and presentation sharing

MULTI ROOM BROADCASTS

Multiple dedicated, personalized virtual rooms. Direct links to each channel on every page for easy transition between rooms for online viewers.

VIRTUAL SUMMIT

Launch a fully comprehensive virtual summit with features like a lobby, networking, one on ones, breakouts, workshops, help desks, and keynotes.
